

THE UPCOMING CONFLICT

Being an INDIAN citizen I should think twice before holding my pen against the ruling government. From the very precise knowledge from social newspapers, online media and from authorized sources we are much aware of the ill-effects of unplanned initiatives. Being a citizen of democratic India all has his/her right to criticize and put forward their ideologies.

IS THAT THE CONDITION GOING ON?

Many political and social workers had come forward with astonishing breakthroughs. While taking an example, Mr. Parakash Raj from the Tamil film industry had profoundly asks the very supreme question that "What an insensitive leader do we have?". The subjects the question of political and economic injustice by the MODI government to the civilians in India. The greatest example of his unsuccessful governing can be depicted in the GDP downfall of FY 2018-2019. For the full year of 2020-21 then, India's GDP is likely to be Rs 134.4 lakh crore as against Rs 145.7 lakh crore in 2019-20. The absolute level of real GDP: At Rs 134.4 lakh crore, India's real GDP that is, GDP without the influence of inflation in 2020-21 will be lower than the 2018-19 level. This point outs the drastic incapability of the system. If we come back to the scenario of covid-19, the last budget sarcastically proves the pathetic condition of citizens. In the current financial year 2021-22, the Narendra Modi government has allocated a budget of Rs 4,78,196 crore of defence expenditure which is 13.73 per cent of the total central government expenditure, but when we peep into the health care the Union Budget 2021, only proposed allocation of Rs 2,83,846 lakh crore for the healthcare and wellness sector which is almost half of defence expenditure in this crucial covid situation. During the press conference, Mr. Aravind Kejariwal stated that "Delhi facing acute shortage of oxygen". Being a chief minister of the state begging for oxygen reveals exact devastating condition in Delhi. The Death cases has come over 178 plus due to lack of oxygen. From last day's news reports the story of covid vaccine and the politics involved destroys the term democratic India. Government which is the supreme authority to govern corporates is now under the diplomatic statements. Citizens have to beg for vaccines. At this period of uncertainty, central government is going on with central vista project which is estimated at 20000 crores, instead of giving medical aids to the nation. Another drastic issue is the long marching petrol price hike. If we look into price of 1 litre petrol in Rajasthan and other north Indian states it has touched 100 or more. This hike in day by day fluctuates the basic price of groceries used daily. Excise duty on petrol has been raised from Rs 9.48 per litre in 2014 to Rs 32.90 a litre now while the same on diesel

has gone up from Rs 3.56 a litre to Rs 31.80. Taxes make up for 60 per cent of the present retail price of petrol of Rs 91.17 a litre in Delhi. A Sarcastic cycle rally by a Tamil film star was awakening response to the citizens in India. India being a secular country every citizen has his right to choose his/her religion and this right should be served equally. There should not be unauthentic extraordinary to someone who belongs to a particular community. The Citizenship (Amendment) Act, 2019 was passed by the Parliament of India on 11 December 2019. Under the 2019 amendment, migrants who had entered India by 31 December 2014, and had suffered "religious persecution or fear of religious persecution" in their country of origin. Gandhi once said, Even if all citizens of a nation belong to a particular religion, there is no need of it for her sovereign governing. India being a agriculturally developing country, farmers have a pivotal role in developing nation and to get rid of nation's hunger. They should get best price in market for their crops, The Indian agricultural act 2020, which allows some private corporates to decide the value for their crops makes no sense of permanent settlement for the farmer's problems in India. Unfortunately, the protest was a fail due to current covid situation.

IF STILL THIS GOVERNMENT GOES ON, PEOPLE OF INDIA WOULD GO THROUGH A CONFLICT WHICH ULTIMATELY LEADS TO A BRUTAL CIVIL WAR BETWEEN CORPORATES AND CITIZENS OR A COMMUNAL RIOT.
